Parents of West Rusk HS and JH Students,

Vaping has become an alarming trend in our society. It is not only harmful to our students' health, but devices and components are also illegal for students to possess or use at school (regardless of age). The consequences at school include ISS, OSS, DAEP, minor in possession ticket, and potential loss of driver's license.

Please make sure your student makes the right choice for their health and their future.

Everyone at West Rusk CCISD wants what is best for every student and we will continue to be diligent in this matter through education and adherence to the WRCCISD Code of Conduct.

Thank you for your support and assistance in this matter.
